

UNTAGGED MOVEMENT

2026

A person with light skin and pink lips is shown from the chest up, wearing a beige hooded sweatshirt. Their arms are crossed over their chest. A large, white, bold 'UM' logo is centered on the chest, partially overlapping the hoodie's drawstrings. The background is a plain, light color.

CREATE YOUR OWN STYLE

**WE BELIEVE EVERYONE
DESERVES QUALITY,
COMFORT, AND STYLE.**

Our latest collection brings you 15 expressive colors and an inclusive size range: Regular Fit from XXS to 5XL and Loose Fit from XXS to 3XL. Every piece is made for life on the move, washable at 60°C and ready for low tumble dry.

**SUSTAINABILITY IS NOT AN ADD-ON,
BUT A PROMISE.**

That's why we use only certified organic and recycled materials, hold OEKO-TEX® MADE IN GREEN certifications, and provide each item with a digital product ID for full transparency.

**UM UNTAGGED
MOVEMENT**

Enjoy endless possibilities.
Only be limited by your imagination.
Start from a blank Canvas.
Simple. Neutral. Towards gender,
race, and size. Every stitch is shouting:

“YOU!”

YOUR MESSAGE. YOUR TEAM. YOUR DREAM.

ECO DESIGN IN EVERY DETAIL

Every detail is chosen for both performance and environmental impact:

100% recycled polyester threads (Coats EcoVerde) in all seams and embroidered eyelets, minimizing virgin resource use.

Hoodies and joggers feature 100% organic cotton drawstrings for soft, sustainable comfort.

Inside labels are made from 100% recycled polyester, eliminating waste and boosting durability.

**THE UNTAGGED MOVEMENT COLLECTION
STANDS FOR EXCEPTIONAL TRANSPARENCY
AND CIRCULAR THINKING:**

PETA-Approved Vegan (no animal materials, no testing).

Featuring fully certified materials and supply chain (OCS, RCS).

Traceable recycled or organic content from source to product.

Untagged Movement is for those who want certainty on certified origin, true sustainability, and garment quality, every time.

Sustainability is built into every Untagged Movement product, not as add-ons, but commitments you can trust:

CERTIFIED MATERIALS & LIFECYCLE REVIEW

OCS is a voluntary global standard developed by Textile Exchange, designed to track and verify organically grown materials in products – from the farm to the final product.

OCS ensures that when you buy something labeled as “organic,” it truly contains certified organic material that has been properly handled at each stage of production.

- OCS 100- certified organic cotton (CERES-1725) – for products that contain 95% to 100% organic
→ T-shirts and polo's = 100% OCS 100
- OCS Blended – certified organic cotton (CERES-1725) – for products that have at least 5% organic content, mixed with conventional fibres.
→ Sweaters and pants = 80 % OCS Blended

RCS is a voluntary global standard developed by Textile Exchange, designed to verify and trace the recycled material in a product throughout the entire supply chain.

RCS ensures that a verified percentage of the material is genuinely recycled, promoting full transparency and traceability of recycled content.

- RCS Blended – certified recycled polyester (CERES-1725) – for products that have at least 5 % recycled materials
→ Sweaters and pants = 20% RCS Blended

RESPONSIBILITY

AS STANDARD

OEKO-TEX® PROMISES

OEKO-TEX® MADE IN GREEN ensures that every product is safe for your health and produced with respect for people and the environment. It combines the strict requirements of OEKO-TEX® STANDARD 100 (certified to be free from harmful substances) and OEKO-TEX® STeP (sustainable and responsible production facilities), giving you full confidence that you are choosing an honest and safe product.

PeTA-APPROVED VEGAN

Every piece is 100% free from animal-derived materials and has not been tested on animals.

LIFE CYCLE ASSESSMENT

An LCA calculation (Life Cycle Assessment) is a method for mapping the environmental impact of a product or process during part or all of its life cycle.

We have chosen to conduct an impact analysis of the production process, materials and transport. In other words, from raw material to the central warehouse in Belgium.

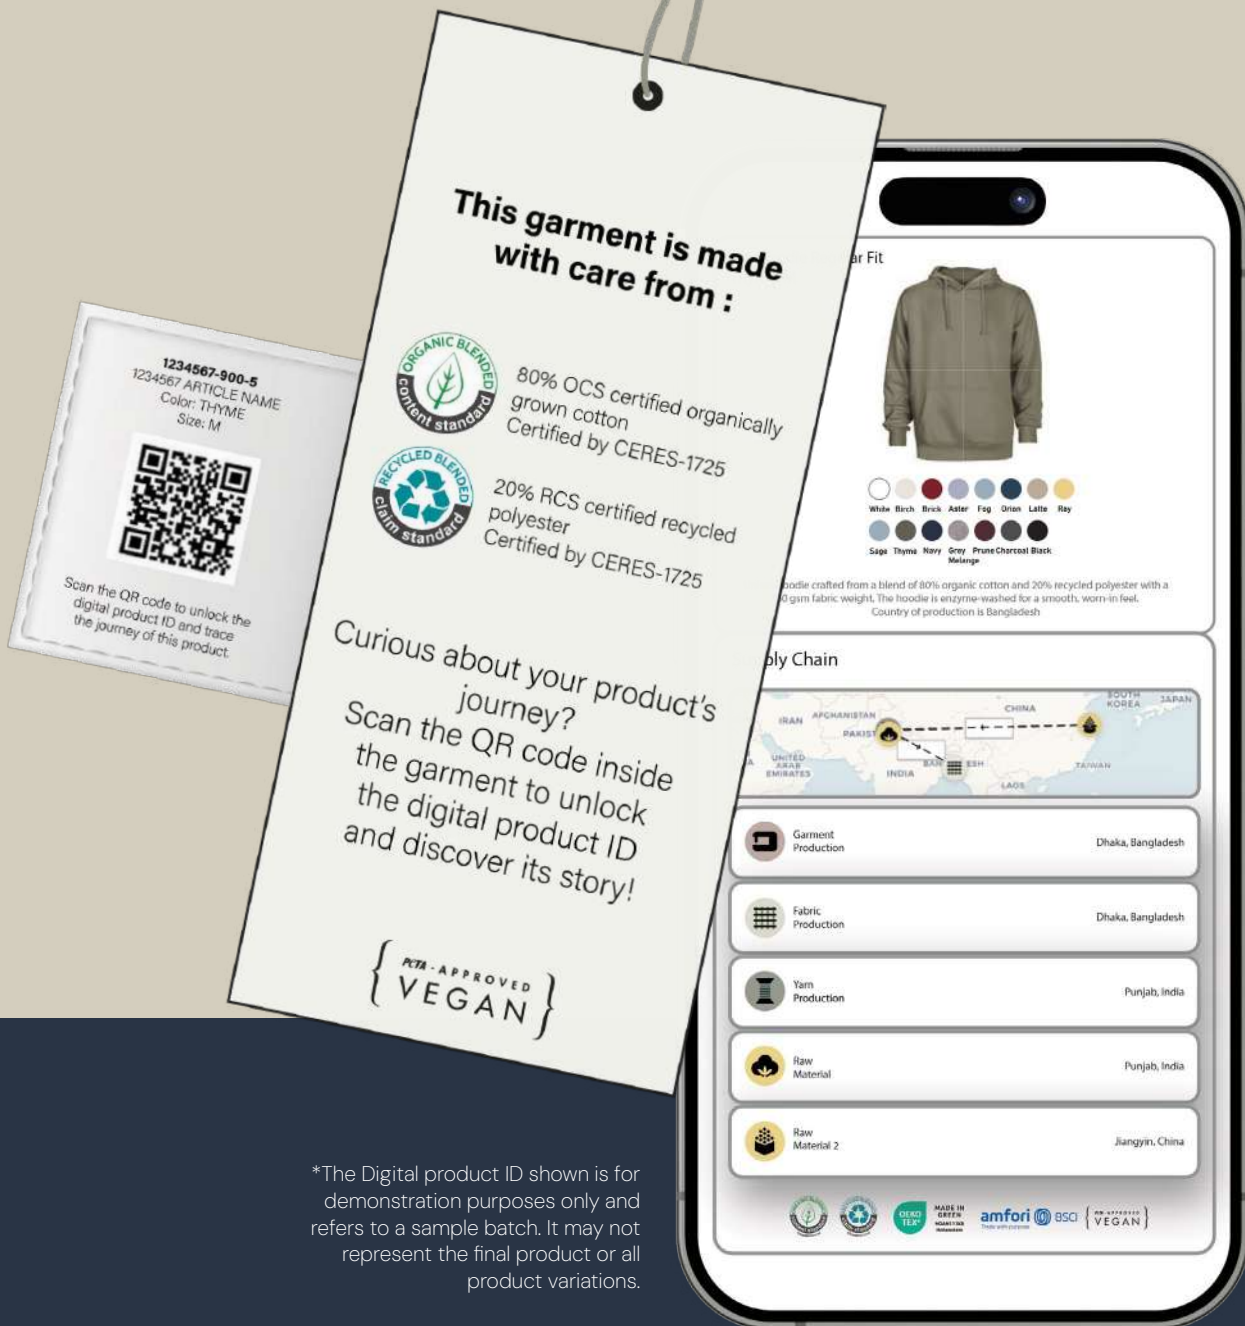

We express the environmental impact in terms of CO2 emissions, water consumption and energy consumption.

This enables us to identify areas for improvement in our process.

FOLLOW^{the} DIGITAL PRODUCT ID

Untagged Movement loves transparency.
Just scan the QR code on the label inside
the garment to get the full Digital product
ID info and learn more about:

- Source of materials
- The full chain of custody
- Ways of transportation
- How to take care of your product
- How to recycle your product
- Certificates

MERCH-READY

Gender-neutral street-style merchandising, ready for brands, influencers, music bands, and everyone who wants the freedom to create their own collection.

TIGHT TEAMS

Comfortable outfits for unforgettable team buildings with your company, school, sports team, family, or friends group.

NOT-SO-UNIFORMS

Employer branding on the workforce as it should be. The new uniform is loose, comfortable, stylish, and branded the way you like it.

PROUD PROMO

Your products deserve the proud promo teams that feel comfortable in the centre of the attention in clothes that breathe quality and style.

GGED

URBAN CONSCIENCE

Untagged Movement is inspired by street-style clothes and lifestyles. We don't make the rules. You do. We listen to a new generation of influencers and we do more than providing a blank canvas for your street credibility.

We make the eco-conscious choices you would make:

- We only work with OCS certified organically grown cotton and RCS certified recycled polyester
- We ensure that every product is safe, environmentally responsible, and ethically produced, certified by OEKO-TEX® Made in Green.

We know the source of every material and provide a detailed digital product ID

- In this DPI you will find all the certifications related to the products

GO CREATE!

- **T-shirts, polos, sweaters, hoodies, sweatpants**
- **9 models — 15 colors**
- **Premium Quality, washable at 60°**
- **Label-free and print-ready**
- **No rules: from perfect fit to oversized**
- **Thoughtfully designed with Ecodesign principles for easier recycling at end of life**
 - No metal or plastic materials are used to finish the eyelets and drawstring ends.
 - High quality metal zipper for a long lifespan and durability. The zippertape is made out of recycled materials.
 - The garments are sewn with EcoVerde yarn, made from 100% recycled polyester.
 - All inside labels are made from 100% recycled polyester.

TEXTILE EXCHANGE

Textile Exchange is an international non-profit organisation that develops standards for transparency in the textile chain.

With the **OCS (Organic Content Standard)** and **RCS (Recycled Claim Standard)**, we can demonstrate the proportion of organic or recycled material used in our products, fully traceable from source to end product, and contribute to reducing climate impact.

AMFORI BSCI

amfori BSCI (Business Social Compliance Initiative) is a global initiative that helps companies improve working conditions in their supply chains.

Our suppliers sign the amfori BSCI code of conduct, which sets out our expectations in terms of social responsibility and respect for people and the environment.

Our membership confirms our commitment to long-term responsibility and gives everyone confidence in our working methods.

INTERNATIONAL ACCORD for Health and Safety in the Textile and Garment Industry

The **International Accord** is a binding agreement designed to improve fire- and building safety for the textile industry in Bangladesh and Pakistan. The Accord includes inspections, fire safety training as well as effective remediation and renovations. The ambition is to expand the program to other production countries.

CLEAN SHIPPING INDEX

Thanks to our partnership with Clean Shipping Index, we can assess and improve the environmental performance of our transport partners. This ensures that our products are transported as responsibly as possible, with a lower impact on air and water.
